

[YOUR NAME]

DevOps Engineer

[City, State] • [your.email@example.com] • [(000) 000-0000] • [linkedin.com/in/yourname] • [github.com/you or website]

PROFESSIONAL SUMMARY

[DevOps Engineer summary — 2–5 years of experience, core platforms (Kubernetes, Terraform, AWS) and results in uptime, deployment speed and cloud cost.]

TECHNICAL SKILLS

Cloud: [AWS], [Kubernetes], [Docker]

IaC & CI/CD: [Terraform], [Helm], [GitHub Actions]

Observability: [Prometheus], [Grafana], [Datadog]

Scripting: [Python], [Bash]

EXPERIENCE

[DevOps Engineer]

[Mon Year] – Present

[Company Name] — [City, State]

- [Achievement with a metric — what you did, how, and the measurable result (e.g. increased X by Y% or saved \$Z). Start with a strong action verb.]
- [Achievement with a metric — quantify scope, scale or impact.]
- [Achievement with a metric — focus on outcomes, not duties.]

[DevOps Engineer]

[Mon Year] – [Mon Year]

[Previous Company] — [City, State]

- [Achievement with a metric — what you did, how, and the measurable result (e.g. increased X by Y% or saved \$Z). Start with a strong action verb.]
- [Achievement with a metric — quantify scope, scale or impact.]

PROJECTS

[Platform / Migration]

[Tools]

- [Outcome — uptime %, deploy-time reduction, or cost savings.]

EDUCATION

[B.S. in Computer Engineering / CS]

[Year]

[University Name] — [City, State]

CERTIFICATIONS

- [e.g. CKA (Year)]
- [AWS Solutions Architect (Year)]
